Education

B.Tech PES's Modern College Of Engineering, Pune, Electronics and Computer Engi. — Sept 2023 – Present

- GPA: 9.02/10
- **Coursework:** Maintaining First class Grade and also participate in courses like IEEE ,NPTEL etc.

Skills

- **Languages :** Java, C++, JavaScript, SQL, Python, HTML, CSS, PHP .
- **Libraries and Frameworks:** ReactJs, MongoDB, Bootstrap.
- **Tools and Software:** Linux, Rest API's, Django, Git, GitHub, Postman, VS Code.
- **Database:** MySQL, Firebase,NodeJs.
- **Relavant Course:** Object Oriented Programming, Operating Systems, Database Management System, Data Structure and Algorithms.
- **Other:** Problem Solving, Competative Programming, Software Development, Backend Development, Frontend Development, Agile Development.

Projects

SmartShelfX — AI-Powered Inventory Management & Auto-Restock Platform — Github

- SmartShelfX is a next-generation inventory management platform designed to optimize stock levels using AI-powered demand forecasting.
- Built using Angular 19 for the **frontend, Node.js (Express) for the backend, and MySQL** for data storage
- SmartShelfX provides a smart dashboard, real-time alerts, and automated purchase order suggestions, ensuring minimal stockouts and overstocking.

Green AI Model Comparison Framework Accuracy vs Energy Consumption — Github

- This project implements a dataset-agnostic Green AI framework that evaluates and compares multiple machine learning models based on both prediction accuracy and computational energy consumption.
- Unlike traditional ML projects that focus only on accuracy, this system emphasizes sustainability by measuring training time, inference time, CPU usage, and memory consumption.

Turbidity and Water Level Indicator — 2024

- The experiment successfully demonstrated a functional water turbidity and level monitoring system.
- The results showed that such a system is effective for real-time water quality assessment and water storage management.

Achievements

- Completed 10 week *GOOGLE* Android Developer Virtual Internship
- Technology Job Simulation at DELOITTE.
- Completion of Advanced course on Green Skill and Artificial Intelligence Under Skills4Future Program
- Certification for innovative and investigating research paper study at IEEE NPTEL certificate for completing Technical English course with score 87

Position Of Responsibility

Member of IEEE Community: with over 6000+ young professinals and industry mentors. Actively involved with IEEE events, Learnig from eBooks.

Representative of Modern council: Management and discussion of all college activities or performance.
